Summary

I recently graduated from college in Boston, MA and decided to move to Portland to try out a new city.

I think that food & drink are amazing ways to connect with people, and I love being a small, positive part of someone's day, so I'm seeking a job that allows me to interact with people in a friendly environment.

Skills

Customer Service
Food Preparation
Electrical Engineering

Multnomah County Food Handler's Card
Valid through August 2021

Education

Olin College of Engineering	2014 to 2018

BS, Electrical & Computer Engineering, GPA 3.6

Employment

Bobbie's Dairy Dip
Shift Leader   May 2013 to Aug. 2014
Nashville, TN

Took customer orders, prepared food and drinks, and maintained a clean and fun work environment for employees and customers.

Olin College of Engineering
Lead Course Assistant, Principles of Engineering   Fall 2016 to Fall 2017
Needham, MA

Acted as head of the course assistant (TA) team for a project-based course in mechatronics. Organized TA meetings, led rubric creation and grading, and served as a point of contact for instructors. Course responsibilities included providing feedback on student projects and lab assignments, guiding project and team development, and holding weekly and by-appointment office hours.

Museum of Science
Technical Studio Intern   Summer 2016
Boston, MA

Engaged students of all ages, especially those underrepresented in STEM, in engineering challenges. Created and facilitated engineering design challenges for museum visitors.

MIT Open Style Lab
Engineering Fellow   Summer 2016
Cambridge, MA

Worked on a small, interdisciplinary team with occupational therapists and fashion designers to create a custom jacket for a quadriplegic client. Focused on usability for the client's preferences and material testing for fabrics.

Phone2Action
Product Manager & Digital Campaign Associate   Spring 2016
Washington DC

Worked with engineering, customer service, and sales teams to increase communication and streamline the software release process. Led one-on-one new client training and gathered feedback about the online platform.
